### **The Captain's Servant**

Jesus was on His way back to the city of Capernaum. A Roman army captain's servant was very sick and close to dying. When the captain heard about Jesus, he went to ask Him for help. Jesus told him that He would help. The captain said that he knew Jesus could heal his servant with just a word. He felt Jesus did not even need to come back to his house. Jesus was impressed with the captain's faith. So Jesus told the captain to go home. He told him that when he got home, his servant would be well again, simply because he believed. The servant was healed that very hour. (Source: Matthew 8:5-13)
